

## Juvenile FIRE SAFETY Services

---

Children of all ages may be curious about fire, and this curiosity can have devastating consequences. If you have concerns about a child's curiosity or behaviors related to fire, we can help.

---

We offer assessment and intervention for children who engage in or are interested in unsafe firesetting activities. There is no cost to Rensselaer County families for Juvenile Fire Safety Services (JFSS).

Services for Rensselaer County families include:

- ▶ Comprehensive firesetting risk assessments and prescreenings
- ▶ Fire safety educational group classes
- ▶ Individual and family counseling and case management services
- ▶ Skill building to reduce risk of firesetting
- ▶ Educational presentations and consultations

JFSS also offers fee-based services for youth who reside outside of Rensselaer County.
